ABOUT US

Established in 1977, MYSH is a leading Jordanian mining and construction enterprise , specializing in large-scale mining and infrastructure development across Jordan and the UAE . With a workforce of over 2,000 professionals , the company has successfully delivered more than 350 major projects .

MYSH's core expertise spans mining, earthworks, Extraction and supply of raw materials for construction .

SUBSIDIARIES

MYSH operates through a group of specialized companies :

MYSH Dubai

Al Mughirat for Freight & Land Transport L.L.C

Premium Mining Equipment Tranding L.L.C

REGIONAL EXPERTISE

Through our years of business we have accumulated a strong expertise in the field of construction works in Four Core Areas :

- **Mining and Earthworks .**
- **Airport runways and infrastructure for runway and airport facilities .**
- **Road and bridge construction .**
- **Buildings .**

MYSH had built and executed projects in numerous parts of the country . We are committed to superior quality , value and complete customer satisfaction by developing collaborative relationships with clients , designers , partners , subcontractors and suppliers .

VISION & MISSION

At MYSH , we believe that quality is the foundation of every successful project , and we strive to provide exceptional services that exceed our clients expectations .

VISION

To occupy and maintain a pioneering position in the construction industry within the Kingdom and expand into neighboring Arab countries .

MISSION

To procure projects at competitive pricing , provide safe working conditions, and deliver quality work within a reasonable time frame utilizing the latest technology .

OUR SERVICES

MYSH , for almost 50 years , has built a reputation for quality , safety and solid expertise across different sectors .

OUR SERVICES

• CONTRACTING SERVICES

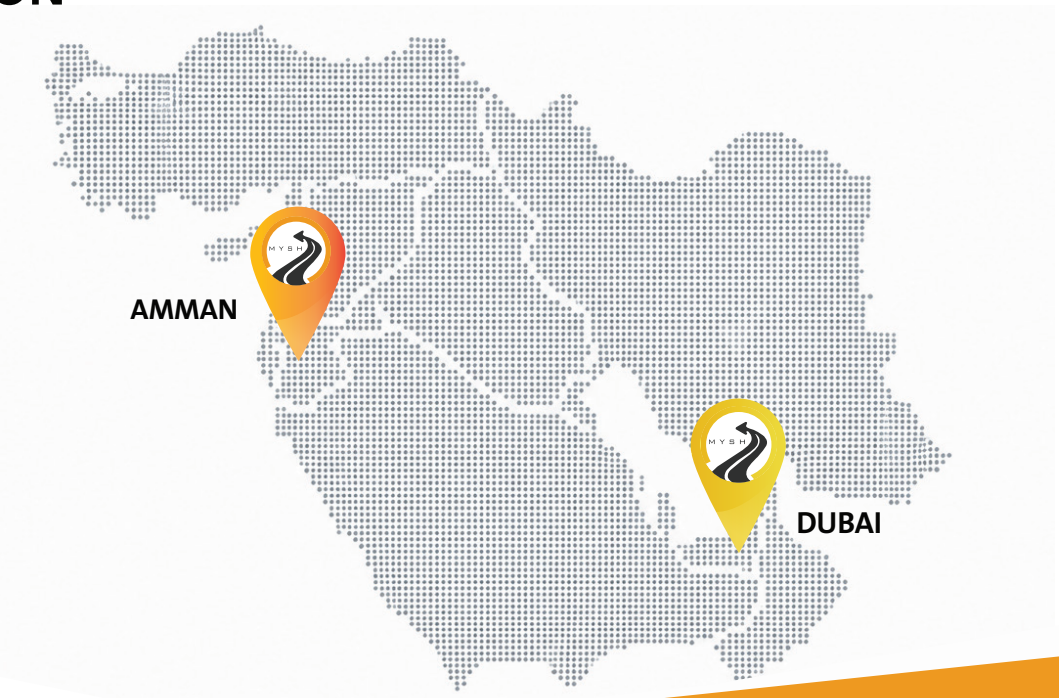

Engaging our experience, team effort, and advanced technology, MYSH offers a highly competitive level of contracting and mining services that fully satisfy and align with clients' requirements across various projects , while maintaining full commitment to the highest standards and specifications to ensure the best results .

• LOGISTICAL SERVICES

MYSH Provides Logistical Services in its scope of work ; In the form of Rental and Supply of Construction and various industry equipment , and many other forms .

LOCATION

AMMAN

MOH'D YOUSEF ALSHABATAT & PARTNERS COMPANY FOR CONTRACTING (MYSH) was established in the Hashemite Kingdom of Jordan in 1977 as a small company in the field agricultural access roads . MYSH has grown from strength to strength and became one of the leading companies in Jordan . We are a local company with significant projects over all the kingdom .

Our team of highly experienced , dedicated , talented professionals are the keystone of our business who adopt a truly collaborative approach to their work .

DUBAI

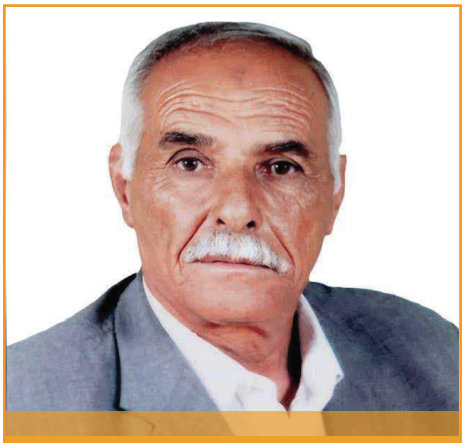

The year 2021 has marked the beginning of a new era for MYSH company by establishing a new branch in Dubai for heavy equipment trading and rental that serves the same mission and has the same vision as well .

This milestone will broaden our horizons, spread our wings, and enable us to cover all market demand .

FOUNDER

MOH'D YOUSEF AL SHABATAT

Our company is a living legacy of Moh'd Yousef Al Shabatat , whose vision, resilience, and sacrifices laid the foundation for everything we have achieved . His journey continues to inspire and guide us every day. He faced countless challenges with courage and unwavering determination, teaching us that true success lies in perseverance and hard work .

FOUNDER

MOH'D YOUSEF AL SHABATAT

His dreams and dedication drive us to keep growing , not just as a business but as a family united by his values . We honour his memory by striving to uphold the principles he cherished and by carrying forward the torch of his incredible journey . His life and legacy remain our greatest source of strength and motivation .

HIGHLIGHTS 2024

Mohammad Yousef AlShabatat & Partners Company for Contracting was honored by His Majesty , King Abdullah ibn Al Hussein II , with the Silver Jubilee Medal on October 16 , 2024 .

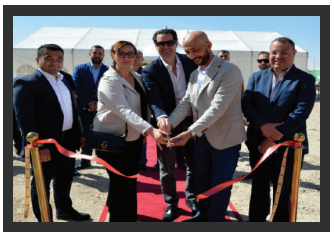

HIGHLIGHTS 2025

The signing ceremony of the purchase agreement for the new CAT 6030 shovel-mining machine, which will be a significant addition to MYSH's phosphate mining equipment fleet in support of the Al-Hassa Project .

HIGHLIGHTS 2026

Among the most notable development initiatives was signing an agreement with SANY Heavy Equipment Company to purchase five new SKT130S mining dump trucks , each with a 100-ton capacity , to support and modernize the mining equipment fleet at Al Abyad Mine and enhance operational efficiency .

CONTRACTING SERVICES

Engaging our experience, team effort , and technology , MYSH offers a competitive quality contracting services that satisfies and fully complies with client's requirements for any project .

- Mining, Excavations for Mining .
- Airfields and Runways Construction and Rehabilitation .
- Pavements, Roads, and Highways Construction .
- Earthworks and Excavation .
- Concrete Buildings & Steel Structures Construction .
- Solar Systems and PV Panels Installation .
- Infrastructure & Electromechanical Works .
- Aggregates, Asphalt and Concrete Mixes Supply .

LOGISTICAL SERVICES

RENTAL AND SUPPLY OF :

- Power Generators, Cranes, Forklifts, Telehandlers, Light Towers, Air Compressors and Pickups, etc .
- Construction & Specialized Equipment
- Electrical Appliances
- Water Tanks

CORPORATE SOCIAL RESPONSIBILITY (CSR)

At MYSH , we believe that to achieve our goals we must be trusted by the society . As a company , we must be able to efficiently manage the challenges and requirements society imposes on our activities . We must recognize that our operations may impact the communities in which we operate . Our Corporate Social Responsibility (CSR) reflects our commitment to sustainable development , ethical conduct, and the well-being of society and the environment . This statement serves as a cornerstone of our operations .

CORPORATE RESPONSIBILITY AND OUR PRINCIPLES

Corporate responsibility shall be reflected in our core values , in the quality of our work and products, and in our entire range of activities . There must be coherence and synergy between what we say and what we do .

SCOPE AND OBJECTIVES

The CSR Policy applies to all stakeholders , including employees , subcontractors , suppliers, and partners . Key objectives include :

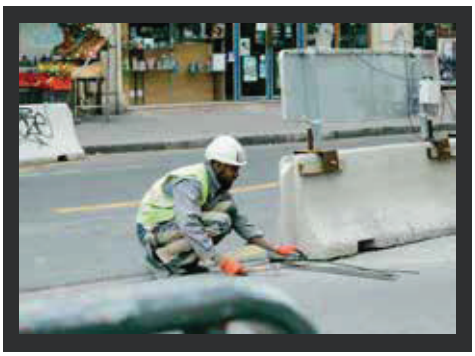

- Reducing environmental impact via responsible material sourcing , waste reduction , and recycling .
- Promoting energy efficiency and integrating renewable energy into operations .
- Fostering employee development through training and mentorship programs .
- Engaging with local communities to create shared value and long-term benefits .
- Ensuring occupational safety and ethical practices in all operations .

IMPLEMENTATION AND MONITORING

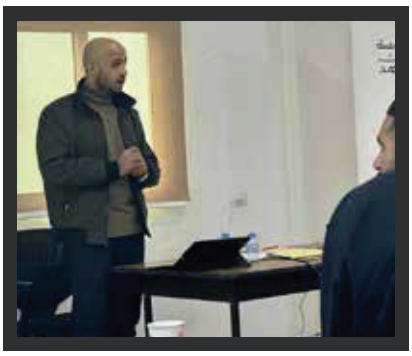

MYSH shall operate as a transparent and accountable company, maintaining openness and accountability towards the general public , authorities , partners , the local community , and the media . We are committed to conducting our business ethically and actively working to prevent and combat all forms of corruption .

CSR AND ANTI-CORRUPTION (OPENNESS)

MYSH shall operate as a transparent and open company , maintaining openness and accountability towards the general public , authorities, partners, the local community , and the media . We are committed to conducting our business ethically and actively working to prevent and combat all forms of corruption .

COOPERATION WITH OTHER PARTIES

MYSH shall show frankness regarding risk and the manner in which we manage the various aspects of our activities . We shall contribute to an open dialogue both internally as well as externally .

EMPOWERING YOUTH THROUGH PROJECT MANAGEMENT :

A CSR INITIATIVE IN COLLABORATION WITH THE CROWN PRINCE FOUNDATION

As part of our commitment to Corporate Social Responsibility (CSR) and community development, our Project Manager, Engineer Younis Al-Shabatat , volunteered to deliver lectures on project management to the youth of Tafila City . This initiative was organized in collaboration with the Crown Prince Foundation, aiming to empower young people with essential skills and knowledge to advance their careers and contribute to their communities .

ENVIRONMENTAL POLICY

At MYSH, we are committed to sustainable practices and environmental stewardship in all our operations, with a focus on cleaning and greening initiatives . Our environmental policy aligns with legal requirements and reflects our dedication to minimizing environmental impact during construction activities. This environmental policy mandates that all employees and contractors assume leadership roles in mitigating environmental pollution arising in their pursuit of business aspirations and activities. MYSH considers the protection of the environment an integral part of its business strategy and practices .

MYSH WILL ACHIEVE ITS ENVIRONMENTAL GOALS THROUGH :

- Operating in a safe manner to avoid spills , leaks , or accidental discharges of polluting materials .
- Limiting the quantities of wastes and other discharges by handling them in a responsible manner .
- Our commitment to complying with all applicable environmental-related legal and statutory requirements, and in particular the "zero discharge policy .
- Assessing the environmental consequences of its operations on the local environment to limit disturbance .
- Assessment of potential environmental risks and impacts for new projects and ongoing operations to determine suitable environmental management plan frameworks .

ENVIRONMENTAL POLICY

- Completing implementation of environmental monitoring plan (EMP) and environmental mitigations at work to reduce potential environmental impacts Limiting the quantities of wastes and other discharges by handling them in a responsible manner .

- Evaluate current technologies, products, and raw materials for waste minimisation and review proper handling , storage , and disposal techniques for existing wastes Assessing the environmental consequences of its operations on the local environment to limit disturbance .

- Disposal of inevitable wastes in line with all regulatory requirements and industry best practices .

- Integrate responsible environmental leadership in the planning anddecision-making process .

- Promoting green procurement to the extent possible wherever applicable .

- Communicate the environmental policy to all employees, business associates , and other stakeholders , and ensure that the policy is available to the public .

GREENING INITIATIVES

We continuously evaluate and improve our environmental policies to uphold these values. Helping to fulfill these goals is the responsibility of everyone who works at MYSH .

Vegetation Conservation :

We prioritize preserving existing vegetation and use locally occurring plant species for site re-vegetation . Green buffers are maintained to mitigate erosion and improvesiteaesthetics .

Community Engagement :

We actively promote awareness and involve stakeholders in greening projects , ensuring long-term environmental benefits .

OUR TEAM

Our people are crucial in the delivery of our services and solutions to our customers . A comprehensive training program is put in place to constantly upgrade our team in technical & management skills in order to ensure that everyone is equipped with the right skill, knowledge, & attitude .

We believe in providing the right training and practical knowledge for our team to enable them to execute their duties & responsibilities confidently. Our aim is to remain relevant to the ever-changing marketplace and customers requirements .

We at MYSH work with a team spirit to achieve excellence and provide innovative solutions that contribute to the success and sustainable growth of our clients and partners around the world .

OUR CLIENTS

OUR PROJECTS

Tafilah industrial city project-first stage :

Client : Ministry of Public works & Housing - Jordan Industrial Estates CO
Project Duration : 920 Calendar Days
Project Magnitude : $20 Million
Project Status: Completed

Tafilah industrial city project-first stage comprised an area of about 500,000 sqm whereby the project included earthworks, roads construction , steel structures, infrastructure, pavements, gates, entrance, ground water reservoirs, elevated water reservoirs, administration buildings as well as comprehensive electromechanical works & fire-fighting .

OUR PROJECTS

East Pond Expansion SP 2-3 Part B :

Client : Arab Potash Company
Project Duration : 720 Calendar Days
Project Magnitude : $11.6 Million
Project Status: Completed

البوتاس العربية
Arab Potash

The purpose of the Works under this is to construct the new salt pond SP2-3 for enrichment of brine by evaporation and salt deposit .

The project is mainly concerned in the excavations of 4,450,000 Cu.m of Solar Evaporation Pond , and the processing and stockpiling of fill material, and using fill materials for Dikes Construction .

OUR PROJECTS

UD2.4 Aprons, MSAB, Jordan :

Client : US army Corps of Engineers
Project Duration : 1030 Calendar Days
Project Magnitude : $9,887,221
Project Status : Completed

Scope of Works includes the construction of Flexible Pavement for Flight Line Roads and Rigid Asphalt Pavements for Aprons . Scope also includes Excavations, Marking and Rip Rap construction .

OUR PROJECTS

Construction of Al-Rukban/ Al-Hadalat Border Road :

Client : Ministry of Public works &Housing-Saudi Fund for Development
Project Duration : 564 Calendar Days
Project Magnitude : $9,887,210

The Border Road is located at AlMafraq, at the border of Jordan-Syria. The road is considered to be in a high sensitive secured military area. Scope of work summarizes in the construction of 66 Km Road with the required drainage works, marking and signage .

OUR PROJECTS

MSAB 13/31 Runway Repairs / Site Adapt - Jordan :

Client : US army Corps of Engineers
Project Duration : 980 Calendar Days
Project Magnitude : $8,317,004

US Army Corps of Engineers®

Scope of Works includes: 4 Km Runway and Taxiways repair and rehabilitation , including earthworks, milling, paving, Marking, asphalt repair for rigid and flexible pavement .

Repair Taxiway Alpha :

Client : US Air Force
Project Magnitude : $3,443,817.15

Scope of Work Summary : Reconstruction Taxiway Alpha from Alpha 1 to LOLA 2 to design and rebuild approximately 58,092 SM of full depth 6 inch (15.24 cm) asphalt concrete taxiway and 14 inch (35.56 cm) base course to include the lighting system replacement .

The project was constructed in phases to make sure that the taxiway is workable at all times .

OUR PROJECTS

MYSH's ability to manage each phase of a project's efficiently and effectively has enabled the Company to successfully complete more than 250 projects with a wide and various range of activities .

Construct FP Modular Billets :

U.S. AIR FORCE

Client : US Air Force
Project Magnitude : $1.6 Million

Scope of Work Summary : Design and Build 5 Billeting Facilities 12.2 x 45.7 each with its associated electrical , mechanical , HVAC, Plumping and Fire Fighting system works .

Construct DKET Yard Infrastructure :

U.S. AIR FORCE

Client : US Air Force
Project Magnitude : $ 959,750.41

Project Summary : Construct concrete pads, a fence, supporting MHDS, transformer, and stub ups to support Deployable Ku/Ka-band Earth Terminal (DKET) . Construction also includeed civil, structural , electrical, and communications work required to produce a complete and usable facility in addition to the fencing and gates construction around the DKET area .

OUR PROJECTS

CVSA Repair :

Client : US Department of Defense – USAF
Project Magnitude : $743,335

Project Summary : modernize the 33.2k SM Commercial Vehicle Search Area (CVSA) including paving and marking to improve traffic flow and security posture. This project made a significant security improvements to the existing CVSA such as, relocation of the exit lane gate at both ends, extend walk lanes, improving driver and Security Forces safety, installing conduit for future primary power connection , and relocate existing tiger teeth and barriers . Construction also included civil and electrical work required to produce a complete and usable facility .

OUR PROJECTS

Expansion and Rehabilitation of Ayma – Tamween Junction :

Client : Ministry of Public works & Housing
Project Duration : 690 Calendar Days

Ministry of Public Work and Housing

Four lane 4.5 km long road including earthworks, paving , retaining walls , piping , drainage , pavements , paint works , lighting , etc .

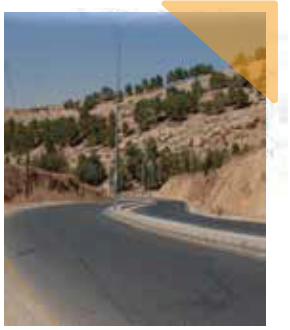

Expansion and Rehabilitation of the King Way Road – Tafila :

Client : Ministry of Public works & Housing - Jordan Industrial Estates CO
Project Duration : 720 Calendar Days

Ministry of Public Work and Housing

Project included the expansion and rehabilitation of a 10km long , four lane highway including earthworks , paving , retaining walls , piping , drainage , pavements , paint works , lighting , etc .

OUR PROJECTS

Control and reporting unit Qatraneh / 62 Zayed Highway Construction :

Client : Royal Jordanian Air Force
Project Duration : 690 Calendar Days
Project Status : Completed

Construction of 17 Km military command highway, including pavement structure , surface repair, and culverts construction .

Date: 15/04/2018

To whom it may concern

Messrs,

Royal Jordanian Air Force certifies that Moh'd Yousef Al-Shbatat & Partners Company has successfully completed "Re-construction and upgrading (Command & Control Center/62 Zayed) unit's Road at Al Qatraneh - Jordan.

The project included earthworks, Culverts, base course, and construction of the pavement structure, with a total length of 18 km. The project has been completed within the required specifications and highest quality.

This certificate is presented in recognition of their outstanding performance and lasting contribution.

Brigadier Gene

Manager of Airfield Directorate RJAF

Eng Amjad Salem Alhaeesh

OUR PROJECTS

Exploration and Extraction of Oils Shale :

During 2008 , MYSH has explored & extracted oil shale in the area of Lajjun in coordination with Shell Oil Company and the Jordan Energy and Mining Company .

MYSH – Jordan Tractor (CATERPILLAR) Joint Venture Panel Installation & Maintenance

Treatment of Cracks and Maintenance of the Runway , Airstrips and Apron at King Hussein International Airport :

The project included treatment of cracks and maintenance of the runway and apron at the airport , it included maintenance works at one of the most important civil airports in Jordan .

Implementation of Roads & Infrastructure at Special Operations Battalion 91 :

Construction of roads and infrastructure in highly secured military base .

OUR PROJECTS

Phosphate Mining - Al Hassa / 46 :

Client : Jordan Phosphate Mines Company PLC.
Tender No : T2023/42H
Project Duration : 118 months
Project Magnitude : $75,193,230

Tafilah industrial city project-first stage comprised an area of about 500,000 sqm whereby the project included earthworks, roads construction , steel structures, infrastructure, pavements, gates, entrance, ground water reservoirs, elevated water reservoirs, administration buildings as well as comprehensive electromechanical works & fire-fighting .

Phosphate Mining - Al Abyad Mine 42 :

Client : Jordan Phosphate Mines Company PLC.
Tender No : T2025/2W
Project Duration : 72 months
Project Magnitude : $62,710,000

Removal of the upper and lower overburden (IW1, IW2) and mining of phosphate from layers (L1, L2, L3) with a minimum quantity of 40,000 tons of phosphate monthly, crushing and screening it, and drying the phosphate to a moisture level not exceeding (%) and transporting it to loading areas in Al-Abyad Mine, and loading it onto external haul trucks and/or mining the phosphate from layers (L1, L2, L3), crushing, screening, and transporting it to the mine crushers and/or external loading yards at Raw No. (42) South, with an approximate quantity of 2.8 million tons of phosphate in Al-Abyad Mine .

OUR PROJECTS

Phosphate Mining - Al Shediyyeh/ Area 10 :

Client : Jordan Phosphate Mines Company PLC.
Tender No. : T2022/45SH
Project Duration : 40 months
Project Magnitude : $39,585,000

The Project summarizes in the mining of 50,000 tons of Phosphate monthly which approximately 1.9 million tons for the entire project including screening the mined phosphate and the removal & stock-piling of 25.5 million cubic meters of over burden material .

Phosphate Mining– Al Shidiya :

Client : Jordan Phosphate Mines Company
Tender No : T2020/41SH
Project Duration: 22 Months
Project Magnitude : $20,187,165.02

The project summarizes in mining 40,000 tons of phosphate monthly . Including the screening of the phosphate material , excavation , removal and stockpiling of overburden material .

Dear Sir,

we would like to extend our sincere appreciation for the work your team has provided on the Reconstruction of Camp Sonic Shelters project. Your team's professionalism and ability to meet deadlines have been instrumental in ensuring the project's progress.

We value the effective communication and responsiveness you demonstrated, helping us overcome challenges and keep everything on track. Your commitment to delivering quality results is well appreciated.

Thank you for your hard work and collaboration.

We look forward to the opportunity to work together again in the future.

Sincerely

Colin Braatz,

MYSH MAINTENANCE CENTER

In order to keep pace with the accelerating growth of our company, we recently opened our own service center, which initially focuses on maintaining our machinery, with future expansion plans to serve other local customers .

With a very experienced staff of mechanics , the service center covers a wide spectrum of maintenance , from following up on the daily services to the scheduled protective maintenance up to complete rebuilds .

Our service center is the well oiled machine behind MYSH smooth operations .
